

SimpoSign II

- Change Signs in seconds
- Blanks quickly slide in and out and stay securely in place
- No bolts, latches, added parts or special treatment
- Can use all Sign blanks including coroplast and aluminum
- Regressed sign face is 22" by 28", the standard dimension for all retail signs

ONE FRAME • MANY SIGNS

Slides in easily, and...

...stays securely in place!

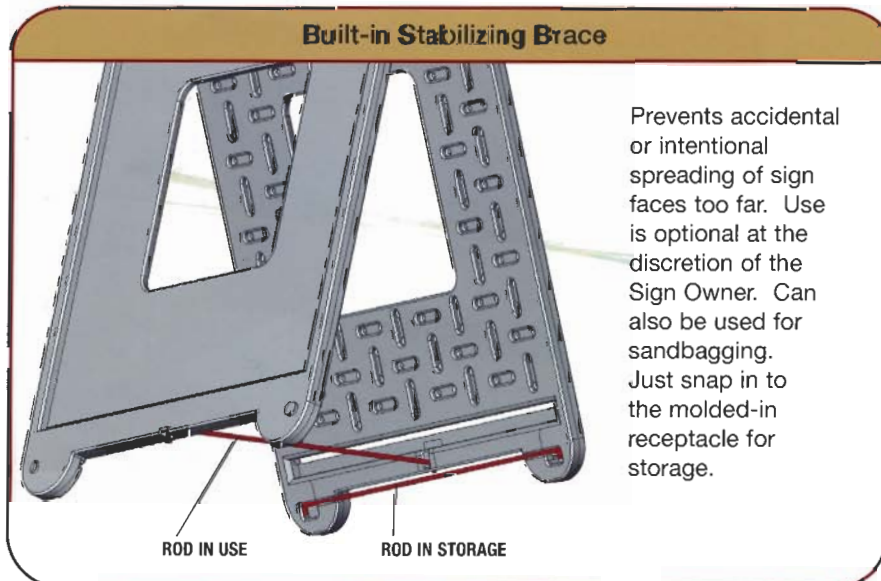

SimpoSign II

- Molded-in stacking lugs nest into each other when units are stacked which prevents sliding
- Molded-in regress helps protect sign faces
- Molded-in handle assures easy portability
- All plastic - no rust, splinters, discoloration or maintenance
- Attractive, light weight, durable and inexpensive

ONE FRAME MANY SIGNS

Each frame displays two signs.
